

SHOAIB KHAN

Python Developer | AI / ML Engineer | Software Developer at Neuroapp

Email: shoaibdotani1147@gmail.com | LinkedIn: linkedin.com/in/shoaib-khan | GitHub: github.com/shoaib1147-dev

PROFESSIONAL SUMMARY

Results-driven Python Developer and AI/ML Engineer with a solid background in Electrical Engineering (Computing & AI). Currently working at Neuroapp software company, architecting and building high-performance backend systems, REST APIs, and intelligent Agentic AI / OCR workflows with FastAPI, Flask, PaddleOCR, PyTorch, and PostgreSQL.

EXPERIENCE

Software Developer - Neuroapp

Current Role | [neuroapp.pro](#)

- Architecting and developing production software, high-throughput backend services, and scalable REST APIs.
- Engineering AI and machine learning automation pipelines to streamline complex data processing tasks.
- Collaborating on robust database modeling, system design, and deployment of resilient microservices.

FEATURED ENGINEERING PROJECTS

NeuroMCQ Platform

[\[FastAPI, PaddleOCR, PostgreSQL, SQLite, HTMX\]](#)

- Built an intelligent assessment & question-bank management platform with FastAPI and HTMX.
- Integrated PaddleOCR pipeline to automatically extract and parse questions/diagrams from documents & images.
- Implemented dynamic CSV/JSON export and high-speed relational database storage.

Autonomous AI Coding Agent

[\[Python, Google ADK, LLMs, Tool Orchestration\]](#)

- Developed an autonomous engineering agent capable of multi-file codebase understanding and AST semantic indexing.
- Implemented dynamic tool calling, automated code refactoring, and multi-step task execution.

AI Content Generation & Research System

[\[Python, Generative AI, FastAPI, Multimodal AI\]](#)

- Engineered an end-to-end multimodal pipeline for automated research, script synthesis, and media discovery.
- Automated multi-platform content publishing workflows with asynchronous job queues.

TECHNICAL SKILLS MATRIX

Languages & Backend:	Python, FastAPI, Flask, REST APIs, Microservices, AsyncIO, SQL, PostgreSQL, SQLite, Redis
AI & Machine Learning:	PyTorch, PaddleOCR, Computer Vision, LLMs, Agentic AI, RAG Systems, Multi-Agent Frameworks
Frontend & Mobile:	Flutter, Dart, React, HTMX, HTML5, CSS3, JavaScript
DevOps & Engineering:	Docker, Linux, Git, GitHub, Unit Testing, System Design, Clean Architecture

EDUCATION & CERTIFICATIONS

B.S. in Electrical Engineering - Computing & AI

Foundational training in computing principles, algorithms, machine learning, and systems architecture.

Introduction to Flutter Course - Simplilearn SkillUp / Aditya Thakur

Certificate ID: 10549631 | Aug 2026
